

Don't Wait Until Back to School Time for Back to School Shots!

The next school year will be here before you know it, so skip the back to school rush and come see us during summer break! Tri-County Health Department has appointments and walk-in clinics all summer long for school-required and recommended vaccines. We even have clinics on Saturdays! Even students that are up-to-date on vaccines may need additional vaccines before kindergarten and sixth grade, and you don't need to wait until school starts to get them! Not sure if your child needs vaccines? Call your child's regular health care provider or call the Tri-County Immunization Line at 303-451-0123 to ask about your child's record or to schedule an appointment.
